The Cercopithecus Ascagne "Red Tail Monkeys"

Kiki : 1st orphan of the project. A year and a half old, he gets around very well when he visits the forest. Curious, engaging, he loves food and devours everything he finds!

Muké : Our 2nd orphan, a year old, he is very protective, tough with a soft heart. He arrived in the camp very thin, which is where he got his Ingala name (Muké = skinny), and will probably be the dominant one of the group.

Joe : Currently the only female, this little one of about 6 months knows how to stand up for herself with the other orphans and loves to play in the trees.

Inga : Small male about 7 months old. Very fearful when he arrived, he loves to play with Kiki, and to reassure his first companion, Sikila.

Sikila : The smallest of the group at 600 grams and a very young age. Wild, he doesn't approach people easily, and finds comfort staying close to Inga with whom he was held captive, and with Joe, his surrogate mother.

Rambo : About 4 years old, Rambo is already in rehabilitation. Comfortable in his new enclosures, he plays the role of the wise one when he interacts with the younger individuals.

Wumba : At age 4, his past has had consequences. Preferring to be alone, he doesn't seek contact with the others. His rehabilitation will be longer than Rambo's.

The Chimpanzees:

Youyou : Received from the Kinshasa Zoo in March 2018, Youyou is 4 years old, loves life, and has her own unique personality. At the end of 2018, she will move to the rehabilitation enclosure with her companion, Mongo.

Mongo : At 4 years old, Mongo is also from the Kinshasa Zoo. A playful one who loves to bounce in her hammock, she is still fearful and needs time to trust and for the carer to take time to reassure her.

P-WAC is authorized to issue tax receipts. This receipt permits French taxpayers to deduct 66% of the amount of the gift up to 20% of your income.
